

Air Flow Pressure Switch With Sensor and 2m Probe 50-500Pa

Part Number: ZW0167150-500

Features:

- This pressure switch is primarily used in ventilation and air conditioning systems for monitoring the air flow in air ducts, as well as in filters, flaps and fans
- They are suitable for air and also other non-flammable and non-aggressive gases

| | |
|------------------------|--|
| Max. Working Pressure | 10KPa |
| Type | Gas Sensor |
| Output | Analog Sensor |
| Mounted Screw Diameter | 4mm |
| Weight | 264g |
| Protecting Level | IP54 |
| Temperature Range | Medium and ambient temperature from -20 ~ 85°C |
| Media | Air, non-flammable and non-corrosive gases |
